OVER A HUNDRED MINERS ENTOMBED.

Death's Clean Sweep in the Virginia Mine in Alabama.

Terrific Explosion is Believed to Have Been Caused by Accumulation of Dust-Class of Men Employed Was the Best in the Birmingham District-Details of the Disaster May Never Be Known if All Perished.

[BY THE ASSOCIATED PRESS-P.M.]

DIRMINGHAM (Ala.) Feb. 20.—By an explosion in the Virginia mine, about eighteen miles southwest of Birmingham, at 4 o'clock this afternoon, between one hundred and ten and one hundred and thirty five union miners were entombed, and it is believed the entire number suffered an awful death. Scores of vigorous rescuers are at work digging into the mine to relieve their friends and comrades on the inside.

The explosion is believed to have been caused by an accumulation of dust. It is also believed that, as the entire quota has probably been killed, the details of the cause of the disaster will never be known.

The camp is almost isolated from the rest of the world, as there is no telephone station at Virginia, and the only wire running to the place is a dispatcher's wire of the Birmingham Mineral Railway, on which Virginia is located. Details of the disaster were slow to come in.

The class of miners employed was the best in the district, and all belonged the United Mine Workers of America. Since the strike has been on in the Birmingham district, many of the most industrious and thrifty miners of Pratt City and other important mining points have removed to the Virginia mines, so that the mines were being worked to their full capacity by the most skilled miners in the community.

Relief trains with surgeons and workmen were dispatched from both Birmingham and Bessemer as soon as the news of the disaster was learned. They began the work of succor in earnest before 6 o'clock, and at midnight had not dug half way through the mass of debris. It is thought it will be 10 o'clock tomorrow before the interior of the stope is reached.

es are well arranged, and there has never be Alabama Steel and Wire Company, but are leased and operated by

President Edward Flynn of the Alabama United Mine Workers and National Committeeman W. R. Fairly, together with E. Allier, district organizer, have left for the scene

President Flynn said before leaving that there were 135 men employed in the mine regularly, but as yesterday was pay day, he could not say whether the full quots was in the mine at the time of the disaster, or not.

picture of Johan Hoch as the husband
who deserted her several years ago in
Chicago, is the second Baltimore woman
claiming to be a victim of the alleged
bigamist. A letter has informed the
police of her existence.

Mrs. Kyle says she answered an advertisement in a Toledo newspaper of
a man who wanted to marry a "refined

"Henry Kyle" asking her to come to
Cincinnati. She did so and they were
married on April 27, 1898. The woman
says they came to Chicago to reside.
She left him once because he compelled her to work for him, but after she
had returned to Baltimore he wrote love
letters and she sent him money. Finally, she returned to him. Before she
left him the second time, she says he
threatened to kill her. Mrs. Kyle says
she was told the man had another wife
and that she then charged him with
bigamy.

OHN REDMOND DENOUNCES THE ENGLISH BUREAUCRATS.

Opens Nationalist Campaign by Bitter Arraignment Which Menaces Balfour Ministry—Says Present Government of Island is Contrary

(BY THE ASSOCIATED PRESS—A.M.)
LONDON, Feb. 20.—(By Atlantic Cable.) John Redmond, the Irish leader, opened the Nationalist campaign in the House of Commons today by moving an amendment to the address in reply to the speech from the throne, declaring that the "present system of government of Ireland is opposed to the will of the Irish people," etc. It was necessary, he said, to emphasize the fact that the Nationalists were irrevocably committed to home rule because there was an attempt to limit the decision at the coming election and to smother the issue. The present system was ruinously extravagant and inefficient, and was distrusted even by the Unionists.

Ireland, he declared, "is governed by a bureaucracy more devoid of responsibility than the bureaucracy of Russia, which England is so fond of denouncing. Armed revoit would be justified if a chance of success existent."

MENACE TO MINISTRY. [EY THE ASSOCIATED PRESS-P.M.]
LONDON, Feb. 20.—In moving as an amendment to the address in reply to the speech from the throne the declaration that "the present system of government (of Ireland) is opposed to the will of the Irish people," John E. Redmond led the Irish party in the House of Commons today in an attack that contained for the Conservative ministry more of menace than lay in the fiscal debate precipitated by Mr. Asquith's amendment last week. The Redmond amendment was carefully calculated, in fact, to undermine the government's majority. Interest in the debate was intensified by a well-defined report in the lobbies, of which quickly spread elsewhere, that the

debate was intensified by a well-defined report in the lobbles, of which quickly spread elsewhere, that the Earl of Dudley had resigned the Lord Lieutenancy of Ireland. This report, which was given wide credence, put heart in the Nationalists, who made the attack on the Earl of Dudley one of the features of their speeches.

The debate drew crowded galleries and peers especially were notable, among them the Duke of Abercorn, the Marquis of Londonderry, the Earl of Ashburnham and others interested in Ireland. It was generally believed that the debate would bring out a sensational scene, but while anything of this character was entirely lacking throughout the afternoon and night sessions, the critical situation, coupled with the clever tactics of the Irish Nationalists, kept the galleries interested and alert until midnight.

Mr. Redmond's speech was an uncompromising demand for home rule. He directly and unsparingly charged individual members of the Irish administration with incompetency. Both Mr. Redmond and Mr. Moore (Irish-Unlonist) who followed, made a special point of what they termed the "shameful treatment" of Sir Anthony Macdonnell in connection with the now famous differences in the ministry over the reform scheme.

Mr. Wyndham, Chief Secretary for

ferences in the ministry over the reform scheme.

Mr. Wyndham, Chief Secretary for Ireland, delivered a straight-forward explanation of how those unfortunate misunderstandings arose. In doing so, he paid a splendid tribute to Sir Anthony Macdonnell, who, he said, was asked to accept the post of Under Secretary, not in the capacity of an underling, but as a wise and able bolleague.

Mr. Wyndham said he had given Macdonnell a free hand to deal with the situation. They had discussed the situation together. He knew that Macdonnell and Lord Dunraven had been considering a reform scheme, but he did not know all the terms of their plan.

The night session was taken up by T. W. Russell, Winston Churchill and others, who bitterly assailed the government's management of Irlsh affairs and the Earl of Dudley's administration.

tion.

The rumor of the resignation of the Earl of Dudlev quickly spread through the House of Commons, but late tonight the Lord Lieutenant's secretary declared the rumor to be unfounded.

A special meeting has been summoned for tomorrow to discuss the situation.

The explosions of chemicals in the Keifer & Delmatch house, with the accompanying bursts of flames, made the fire a spectacular one. Falling walls added to the danger incurred by the firemen, one of whom suffered a broken leg. There were many narrow escapes from death.

The fire was confined with great difficulty to the burned district, which adjoins Union station. The concustions from the chemical explosions broke hundreds of panes of glass across Meridian street. The burned district is bounded by Meridian street, Louislana street, Jackson Place and an alley. ompanying bursts of flames, made the

SEATTLE FINDS AN ELEPHANT.

[BY DIRECT WIRE TO THE TIMES.]

BELLINGHAM (Wash.) Feb. 20.—

[Exclusive Dispatch.] Now Seattle has succeeded in getting James J. Hill to the his big oriental liners in its harbor, the Sound city finds that it has an elephant on its hands. Seattle's harbor is too shallow, even with much dredging, to allow the Minnesota to dock at low tide.

tide.

At Smith's Cove, where Hill:has built big docks and warehouses, at the northern end of Seattle Harbor, the dredges have reached solid rock, and can go no farther. When the Minnesota was loading at the dock, before it left for the Orient at low tide, it rested on the bottom. Because of this, it now de, elops that the big freighter left Seattle for a trip across the Pacific in a hadiystrained condition, with all starboard pumps working.

Hill's engineers are now seeking a new harbor, where big ships can dock.

GOVERNMENT CONTROL.

EMPLOYEES AND THE RATES.
[BY, MRECT WIRE TO THE TIMES]
CHICAGO, Feb. 26.—[Exclusive Dispatch.] A movement is on foot in several of the large railway centers to obtain a monater petition, signed by the rank and file of railway employes, protesting against government control of railroad railes. So, far as could be learned, the movement has not reached Chicago.

learned, the movement has not reached Chicago.

It is said to be the purpose to send such a petition to Congresa in the hope that it will influence legislation. The railway employéa generally are said to be afraid that the commission's control of rates will be followed by a general reduction in railroad wages. Some of the labor organizations are also said to be especially apprehensive that reductions will follow the passage of the threatened rate legislation.

It is remembered that James J. Hill and other railroad owners have publicly stated that wage reductions would be one of the first and most natural results of taking away the control of rates from railroads.

DECISION OF CONSTITUTIONALITY (BY THE ASSOCIATED PRESS-P.M.) SAN FRANCISCO, Feb. 20,—Five poecision of constitutional. The case was that of Joseph Retstock, who was an election officer in the last primary and who was charged with refusing to perform his duty in swearing a challenged voter. Retstock's case came before the Supreme Court on habeas corpus, just before his trial in the lower court.

Retstock's atternty presented two arguments in defense of the claim that the trial should not be allowed to continue. The first was that the election officer's confession before the grand jury was a bar to prosecution; the other, that the primary election law was unconstitutional.

The writ was refused. On the first claim, the court said that the question could be raised at the trial; on the second, the court upheld the law.

The decision affects Charles Wyman and Adolph Steffens, recently convicted under the law.

abandonment of whatever intention there ever has been of calling Congress together this spring.

All this came out today when Representative Townsend of Michigan and Representative Each of Wisconsin, who wrote the railroad bill that has already passed the House, called at the White House and talked with the President about the prospects for legislation. The aithors of the Railroad Rate Bill found Mr. Reosevelt well posted as to prospects, and free to admit, so far as he can see, that there is little chance that the Senate will pass the House bill, or attempt to pass any bill or railroad legislation before adjournment.

This naturally is a great disappoint.

on railroad legislation before adjournment.

This naturally is a great disappointment to advocates of action without delay, but they know the affairs of the Senate well enough to understand what is to be expected there. During the summer thorough study of the aubject of railroad rate legislation will be made by the authors of the House bill, and it is probable that they will be ready to add some new features to the measure when the next Congress assembles, either in extra or regular session.

sambles, either in extra or regular session of Congress on railroad legislation can be avoided." said Representative Each. "The President will undoubtedly have strong backing for consideration of this question, which is recognized everywhere as foremost in American politics and business life."

A subcommittee of the House Committee on Interstate Commerce, which has been investigating the subject of private car lines with a view of reporting legislation supplemental to the Esch-Townsend bill, now in the Senate, will take no definite action at this session of Congress. Its labors will end with hearing acheduled for this week, as members of the committee believe sufficient time has not been given the committee to enable it to act intelligently. Representative Stevens and his arsociates are also of the opinion the Senate will do nothing with the rate bill this session, so any conclusion reached now would be valueless.

An amendment was offered by Mr. Perkins of New York, proposing a reduction in the number of new battle-ships from two to one. Mr. Rixey of Virginia opposed the construction of any new battleships at all, on the pleathat sufficient officers had not been provided, and also that the United States in the matter of battleship construction was building faster than Great Britain.

Before the vote was taken, Mr. Baker of New York created a sensation by offering the following resolution, which has teed:

"That while this House views with

diana made the point of no quorum.

The Speaker proceeded to count, and then inquired if any member had not voted on the previous vote.

"I did not," said Mr. Robinson.

"Then you are one and I am two, and that makes a quorum," replied the Speaker, his remark convulsing the House. A further motion by Mr. Wadsworth to adjourn was defeated, and then the motion to recommit was voted down, and the bill was passed without division.

air. Payne of New York announced to the House the death today of his colleague, Mr. Otis, at his home in Yonkers, and offered the usual resolutions of sympathy and regret. The Speaker appointed a committee of the House to attend the funeral. The House then, at 7:19 p.m., adjourned un'il tomorrow at 12 o'clock.

plete sympathy with the Liberal movement, would exercise a restraining influence.

The meeting was held in the auditorium of the university, a pile of yellow buildings on Basil Island, Neva Hall being comparatively small and capable of holding only one-fifth of the 4000 students assembled. The auditorium was packed to suffocation with earnest-looking young men and women and the doorways and windows were banked with students who held others on their shoulders.

It was a strange gathering. Most of the students were poorly clad and all were in a state of intense excitement, their very eyes burning with zeal. A small rostrum in a corner was occupied by the speakers. A bell with which the orators were greeted was completely unavailing.

From the outset, student orators set the imagination of their auditors aflame with the spirit of liberty, unsparingly denouncing the course of the government, declaring that promises could no longer avail and that the only satisfaction would be freedom of speech, conscience and the press and the convening of a national assembly. The majority coupled this with a demand for ending the war. Almost every orator went back to the French Revolution for parallels. Again and again was Russia declared on the eve of revolution.

Whereabouts of Steamer a Mystery.

SACRAMENTO, Feb. 20.—[Exclusive Dispatch.] Dr. Millspaugh, superin-endent of the Los Angeles State Northe past week endeavoring to forward legislation for the relief of the insti-tution of which he is the head. It is either desired to obtain a sufficient ap-propriation for the repair of the old buildings or else obtain authority to sell the present site of four and one-hall acres near the city park, reinvest the money in a new site on Boyle Heights or other suburban property and with the difference in values be-

and with the difference in values between the two locations build a new set of buildings. Most of the Los Angeles delegation do not favor this latter plan.

Assemblyman Phil Stanton, discussing the subject today, said: "As chairman of the Ways and Means Committee, I believe the wisest policy will be to report favorably McCartney's two appropriation bills, carrying \$50,000 for repairs and \$9000 for new furniture, respectively, for the Los Angeles State Normal School. General Appropriation Bill Calls for Expenditure of Seven and Onehalf Million Dollars in Round Numbers-Whittier School Suffers Cut.

[BY THE ASSOCIATED PRESS-P.M.]

S ACRAMENTO, Feb. 20.—After several weeks' work, the Ways and Means Committee presented the Jeneral Appropriation Bill to the Assembly just before adjournment, late this afternoon. The measure was ordered printed in the journal at the request of Chairman Stanton of the committee, and was made a special order for next Thursday night. The total amount of the bill is, in round numbers, \$7,566,000, exceeding the Controllar's estimate by nearly a half-million dollars.

During the past two weeks the committee has been working night and day rutting down the appropriations asked for by various State institutions, in order to keep the total amount within the tax income. The act makes appropriations for the support of the government of the State for the fifty-seymith and fifty-eighth fiscal years.

Particularly noticeable in the bill is the large appropriation that has been made for the maintenance of San Quentin Penitentiary. The amount set aside for running expenses for this institutions is \$58,525, as against \$80,000 given for its support two years ago, and \$20,520, as against \$80,000 given for the increase is that instead of allowing the prison board to handle the funds accruing from the sale of Jute bags, the sums will be turned over to the State Teasury. It is expected that the method will cause the State to gain several thousand dollars, and will not increase the tax rate, as the lucrease in the appropriation bill will be offset by the return of the jute-mill proceeds. In the appropriation bill the normal schools and other educational institutions of the State were given practically the same amount as estimated by the Controller. The University of California is given £20,000, its full share, which is in excess of the constitutional tax levy of 2 cents.

Various insane asylums and State hospitals were given the exact amount estimated by the Controller in each case except in the sum allotted the Home for the Feeble Minded at Glen Ellen, £100,755 being allowed for salaries, which is £755 over the amount set by the Controller. This increase was made as the result of a trip to the home by a special committee, which yecommended that provision be made for the employment of more help. These various hospitats demanded large increases over what they have been allowed in the past, but as the Controller had made a liberal advance over the appropriation of two years ago, the committee decided to stand by his estimate after carefully inspecting the needs of the various institutions.

special says that a sensational episode in high life there shocked folks as they were going to church yesterday. It says:

Filas Ward, the multi-millionaire rail-way owner and candidate for Governor in 1836, was the scene of an afray that ended in two detectives taking Henry Rorby Angelo, the millionaire con-tractor of Los Angeles, from the house handcuffed. Angelo is the husband of Ward's sister. She left their home several weeks ago, when he was on a business trip to Honolulu. She came here, and is living with her brother. The efforts made to suppress the facts in the case were extraordinary. The entry on the blotter of the Police Station, where Angelo was locked up, was made in lead pencil, although all other entries are in ink. The original entry had been erased, and the harmless of linearity, had come com-

"The marriage of Miss Ward to Angelo was an important affair in 1902. Angelo, was born in Denmark, and came here with a large fortune, made in contracting in California. After the marriage, the couple toured Europe, and returned here to live. There were rumors of strife between the Wards and Angelo. When the talk became general, Angelo and his wife went to Los Angeles, where the young husband bought a mansion and invested in several corporations.
"Several weeks ago he went to Honolulu. His wife refused to take a sea trip, and when he returned to his home, twelve days ago, he found the mansion closed up and the furniture and other household goods in storage. Angelo started at once for Newark, and noticed that he was being followed by detectives. At Billings, Mont., he gave the detectives the slip, and they discovered the trick. To save themselves, they hurried to Ward's home, and were reporting to him when Angelo broke in." Gas Man in Minority in Delarawe Legislature First Time Since He Be-gan Senatorial Contest. [BY THE ASSOCIATED PRESS-P.M.]

DOVER (Del.) Feb. 20 .- The feature DOVER (Del.) Feb. 28.—The feature of the Senatorial deadlock today was the desertion of J. Edward Addicks by Speaker Denny of the House, who voted for Henry C. Conrad, a Union Republican. Speaker Denny's action places Addicks in the minority of the total Republican membership of the Legislature for the first time since Addicks ature for the first time since Addick

lature for the first time since Addicks began his contest for the United States Senate, in 1885.

After the joint assembly separated today the fifteen men who are still loyad to Addicks met, and thirteen of them signed a round robin, pledging to support their candidate until the session ends or until Addicks announces his withdrawal. They do not expect him to withdraw. On the contrary, his adherents say that he will remain a candidate until the Legislature adjourns, and will be a candidate two years hence.

Two ballots were taken today. The last resulted: William Saulsburg (Democrat,) 29; Addicks (Union Republican,) 14; Henry A. Dupont (Regular Republican,) 6.

The Crown Prince, seeing the awkwardness of the situation arising from the absence of his fiancé's mother, and the delay in her arrival, wrote to the Emperor to advice. The Emperor telegraphed: "Send Cecilia to her mother. You return at once."

While the incident has necessarily caused some friction between the two families, the Associated Press is assured on the highest authority that the engagement has not been broken off. The ruling family of Mecklenburg-Schwerin evidently is much agitated over the matter. Grand Duchess Alexandrine (elder sister of Duchess Cecilia.) suddenly came to Berlin Saturday and had an hour's private talk with Emperor William, after which she took the next train for home.

A can of gasoline, oil-soaked cloth and a substance said to be nitro-gly-cerine were found Sunday night when fire was discovered in the tailor shop of Charles Fass, in the Morrison Hotel building, Chicago. The police are investigating. The fire caused much alarm in the hotel, it being the third time within a week that guests have been driven into the street by flames. At Mason, Mich., Mrs. Carrie Joselyn, who pleaded guilty to murdering her husband by poison, and Issac Swan, her paramour, and former farm hand for the Joselyns, were both sentenced yesterday to life imprisonment.

At Berlin, the Reichstag approved, by a vote of 192 to 63, yesterday, the first article of the reciprocity treaty between Germany and Austria, and accepted the remaining paragraphs without debate. The minority was largely composed of Socialists. As this was the first vote on the commercial treaties it was awaited with much interest.

NEW CARDINALATES SOON. NEW CARDINALATES SOON.

ROME, Peb. 20.—As there are ninevacancies at present in the Sacred
College, Pope Piux X has expressed
his intention to appoint new eardinais at the next consistory, the date of
which has not yet been decided, as a
great deal depends on negotiations
now going on regarding the conferring
of these offices. It is probable that
cardinalates will be given to Hungarians and Italians, but none will
go to Great Britain or the United
States.

NEWS AND BUSINESS.

Elmer Robinson, a fifteen-year-old boy, is in the Detention Home, charged with burgiary. In company with two other lads, young Robinson is charged with having burgiarized a dyeing es-tablishment on San Julian street a week ago. The boys secured a large amount of plunder, but no money.

A. W. McCabe was severely injured last evening on Spring street near First by falling from a moving street car. He tried to dight before the car stopped, slipped on the wet paving and fell violently to the ground. He sustained a spramed should, and elbow, and its body was badly bruised and wrenched.

Likes the Penitentiary.

Stev: Dawson, an ex-convict, must like life in the penitentiary. He was relaxed only a short time ago after having served a term for larceny. Saturday he stole a pair of hunting boots and sold them. Yesterday he was arrested by Patrolman Peterson and identified. He will be prosecuted for petty larceny with a prior conviction.

A young man who gave the name of Robert J. W. S. Blair, was arrested by the detective yesterday as a suspect. He had in his possession a "Famous" bleyele, No. 1240, which he was trying to sell, and could not explain where he obtained it. The detectives believe he stole the wheel, and they are desirous of having the owner of it come forward.

At the Soldiers' Home this afternoon fifty members of the Loyal Temperance Legion of the Los Angeles Orphans' Home will engage in an oratorical contest for a silver medal offered by the W.C.T.U. There will be interesting readings by Miss Mullohan and Miss Barney will sing. It promises great entertainment for the veterans. Mails Stiff Delayed.

But little mail of recent date was received at the postoffice yesterday from eastern trains, and the Santa Fé mail service was completely canceled. A little dribbled in on Southern Pacific trains, but a bad blockade is understood to exist at El Paso. Postmaster Filnt says a congestion is bound to occur here when it all begins to come in with a rush.

A telegram was received from a firm
of undertakers in Kansas City yesterday by the police department asking that an effort be made to find the
whereabouts of the father of George
Crocklin. The telegram states that his
son is dead, and it is desired that orters be given as to the proper disposition of the body. The police have been
mable to find the eider Crocklin.

Former Employee of Western Union Telegraph Company Succumbs to Surgical Operation.

Harry H. Haffner, until a year ago a member of the office force of the Western Union Telegraph Company, and well known to hundreds of Los Angeles people, died at 10 o'clock yesterday morning at Indianapolis from the effects of a surgical operation. He was 5 years of age, unmarried and at the time of his death his mother and sister were visiting relatives in Oakland.

After his departure from Los Angeles Haffner had taken a responsible position in the employ of the Pullman Company, which he held up to the time of his last illness. The funeral will be held tomorrow at Indianapolis.

WILD INDIAN

He Will Uphold Honor of Slauson's Piute Friend.

Shocking Tragedy Recalls Local "Plug" Incident.

BEATTY (Bullfrog Mining District, Nev..) Feb. 12.—A triple tragedy of the desert happened last Tuesday at Ash Meadows, an isolated camp some distance from here, and news of it was brought in to eatty yesterday by a mounted Indian messenger, riding sard.

mounted indian messenger, raing fourd.

It seems that Bob Black, a notoriously bud Plute, became crazed by liquor furnished him by a Swede who keeps a little shack store at Ash Meadows. At 3 o'clock in the afternoon of the day mentioned he started in to shoot up the section. He put a rife baill through his squaw's heart, and left her dead in their tepee. His next victim was C! rile Bruce, a peaceable Indian, whom the drunken fiend shot down and murdered in cold blood.

"Ash Meadows" Frank, also a Piute interfered in an attempt to overpower Bob Black and save Bruce's life. He received a rife ball in the breast, and was dying at the time the messenger

interfered in an attempt to overpower Bob Black and save Bruce's life. He received a rifle ball in the breast, and was dying at the time the messenger started for Beatty.

The drink-cruzed savage then mounted his horse and rode out into the desert. He is now at large, armed with rifle and six-shooter-weapons in whose use he is an expert.

News of the triple tragedy first reached members of the tripe at Partump, and they dispatched the messenger to Beatty to inform their chief, John Tacopah. This morning Chief John Tacopah. This morning Chief John Tacopah. This morning the John and his trusted lieutenant, Bob Scott, buckled on their guns and rode out into the desert, determined to trail the outnew and capture him, in which event he will be dealt with according to tribal laws. For the present, it is understood, the case will be left entirely in the hands of the Plutes, whose efforts for capture and punishment probably will not require reinforcement at the hands of the whites. The chief, ordinarily an easy-going, peaceable savage, has been aroused by mis people to energetic action on the representation that the good name of his tribe and the reputation of his father—who for many years was chief before him—are at stake.

No desert Indian bore a better character among the white people of this aparsely-settled desert region than old Chief John Taropal, father of the present head of the gribe. He is understood to have died, near Parump, receitly, in the peace of a ripe old age. For the last thirty wears it had been his habit to make periodical visits to Los Angeles; ... nu poon seturning his main boast was wont to be that he had seen his "pard," J. S. Siauson, the capitalist and retived banker of that city, in the proud possession of whose friendship Tacopah held himself dignined above the common run.

ing while wandering the streets in search of me, and his one reply to all interrogations was to produce a card bearing my name, and observe: You sabe Slauson? Damn good man. My pard. Huh!"
"Putting together as two and two the savage's rather remarkable head-gear—he was wearing all that was left of my gift hat—and his one monosylable explanation to all forms of questionings, the police gathered Tacopah into safe keeping for the night.
"The next morning I made out from him that he had slept in an 'iron hotel,' and enjoyed a 'bueno breakfast.' I had the policeman buy him a second and more substantial dejeuner, after which I took the chief to a hatter's and bought him s. new silk tite. We then invaded a milliner's shop and had the glossy stovepipe togged out. Tacop..h and I spent a full hour selectine the gayest shade of red plush ribbon in stock. It was banded soberly around the beaver's crown, a crimson feather added by way of plume, and out into the astonished streets we strode—a quiet and respectable banker arm in arm with the most intensely dignified Plute chief that ever the West produced.
"The last time I saw John Tacopah in Los Angeles he wore a battered slouch; that ...er had gone the way of the flesh. He had an ugly, backing cough, and his old strength was so si ttered that when we were waiting for garments in a Main-street store he was not too proud to sit down on the floor many of 'z that the only good Injun is a dead Injun."

Dr. Robert McIntyre, pastor of the
First Methodist Church, who has taken

to lead in the great revival movement
that is to claim the world for the
church.

Dr. Henry Ostrom expressed the belief that the revival was not to stop
by reason of the end of this special
campaign.

Dr. R. A. Walton spoke in the same
vein and took a final shot at Ascot
Park as a place that lured boys and
girls to destruction.

Rev. John Elliott expressed himself
as being glad that God had willed it
that he could have part in such a
campaign as this and said it was worth
the work of a lifetime.

Rev. Tilman Hobson said in parting

the scheme and are waiting with their backs humped up.

The plan originated at a recent meeting of the Ministerial Union, when a committee was appointed to prepare a petition and ordinance to present to the Supervisors and to use every honorable effort to push them through. Robert J. Burdette heads the committee.

The ministers thought they should get after the Supervisors at the same time that the Espey Bill is before the Legislature, and make it all one big movement. They made no mention of suppressing the liquor selling, the idea apparently being that, if the pool selling is stopped, there will be no one at Ascot to whom to sell liquor.

Thus did John W. Gates, millionare, and present king of the wheat pit, express himself last evening at the Van Nuys Hotel when requested to give his views on speculation.

Mr. Gates and his party arrived in Los Angeles yesterday afternoon from the East, coming by way of New Orleans. Their train was more than twenty-four hours late, having been delayed by high water in Texas.

The party brought with them eighteen trunks and twenty-one pieces of hand baggage. Several guns in cases indicate that a season of hunting is in contemplation, while numerous cameras foreshadow another kind of shooting that is not to be ignored. Two men servants and a maid are with the party, which is assigned to seven large suites on the sixth floor of the Van Nuys.

Mr. Gates is affable and frank. He has oplinions, and is not afraid to express them. He is of medium height, and of stout build. Although his head is large and closely set on his broad shoulders, Mr. Gates has a face that indicates strong character and keenness. Business that are wont to appear, and there are no heavy lines of worry or harshness. It is the face of an alert business man who knows how to enjoy life.

"Industrial combinations are a boon to the people," said Mr. Gates, in answer to a query regarding "trusts."
"In whatever line they may be formed, the great mass of the people get a benefit.

profession thieves, the police detectives are willing to admit and they add that it was one of, the best-planned and most carefully-executed jobs ever done in this city. For a time the officers worked on the theory that the theft had been committed by some person in the employ of the hotel, this idea having its origin in the fact that idea having its origin in the fact that the thieves must have possessed a thorough knowledge of the habits of the office force and of the "lay of the land." This theory has been abandoned now and the detectives are trying to ascertain whether any known professional crooks, capable of turning that kind of a trick, have been in the city within the past week.

It is believed that the robbery was so planned that the thieves expected to secure a much larger sum. Half an hour before the theft was committed there was a roll of bills containing several thousand doilars in the safe and it was probably this roll that the thieves were after.

A change in the custom of banking the hotel's money is all that prevented the greater success of the plot laid were to have been committed, but a warning sent out by the police department caused such a close watch to be kept that further attampts at robbery were abandoned.

The ordinance granting to the Pacific Electric Railway a franchise for a rail-road from Sixth to Ninth streets, over the open portion of Santes street and the remainder of the distance over private right of way, was passed by the Couacil and sent up to the Mayor for signature. The franchise runs for a period of twenty-one years, after which term the tracks will be opened to purchase by the city.

City Attorney Mathews stated, in answer to questions from Councilman Howton, that this grant is for a railroad, and the matter of Huntington's right to make a connection with the Ninth street street-railway will be an entirely different proposition. Mr. Mathews also said that while the franchise particularly excludes the right of the grantee to use steam, it permits the carrying of both freight and passensers.

"We didn't think it right to recognize the right of a railroad," said Mr. Mathews. "to connect with a street-railway, and a street-railway franchise could not be drawn so as to allow them to carry freight. If they should attempt to haul freight on the street-railway, the question will then come up."

FEDERAL DECISIONS.

Judge Wellborn Denies Railway In-junction Against Strikers—Wal-nut Growers Lose.

United States Judge Wellborn handed down two decisions in the Fed-eral Court yesterday. The principal one affects the Santa Fé Railway system and the Machin-ists' Union, and is the final echo of the ists' Union, and is the mai echo of the recent strike. Some time ago the Southern California Railway Company applied for an injunction against F. Allinger and a large number of other men, to restrain them from various acts or attempts to injure the company's business or property in any way. The men were strikers, and the bill of complaint contained a long list of things they might do to the corporation. Judge Weilborn refused the injunction, dismissing the bill for want of Jurisdiction—handing down quite a lengthy opinion on the matter.

Judge Weilborn also gave the Anderson-Bangrover Manufacturing Company a victory over the Fullerton Walnut Growers' Association. It seems that the orchardists have been using the "Farrel process" of cleansing and bleaching nuts, believing that the method was not patentable. Judge Weilborn's decision holds that the process is the result of invention, is entitle to a patent-right protection, and directs the complainant's attorney to draw up a suitable form of decree.

in-and-outer Kenilworth, Requiter being third. Fustian is a very good horse just now, and it will take a very good horse just now, and it will take a very good one to beat him for the next two starts, with any kind of racing luck, for he ran the seven furlongs yesterday in 1:25%. The unreliable Kenilworth shot out in front at the barrier's rise and led everything three or four lengths clear around to the back stretch, but Waish doubtless forced too hot a pace and had not enough to finish on, for Fustian and Requiter caught Kenilworth in the stretch and Fustian ran past him when the big brown horse faitered a moment at the paddock gate. Warte Nicht, Blissful, Sais and Atlantico were played briskly by their friends, but seemed to be very much outclassed, by the way the race was run.

Sinner Simon took the third at 5 to 1 from Orchan, on whom there was a very strong wise play across the board. The hot favorite Invader didn't invade much, for he could not get into the money, but did about as well as the others who also ran.

The warm favorite Tryon captured the fifth race and was heavily played by the wise brigade, the 2 to 1 price being cut to 8 to 5 at post time by the weight of money going in. Golden Light was also strongly bet across and easily ran third, just eating up horses as it were, in the last sixteenth. Bronze Wing at even money a show looked juicy to many and they went to him.

Bronge Wing at even money a snow looked Juiey to many and they went to him.

Golden Ivy won the last race at 7 to 1. Straggler running second and the 3-to-1 favorite Varro third. This was what might be called a high-weight handicap dog race, for the weights on the horses were heavy. Varro and Capable had 131 pounds and five others of the thirteen starters had 121 or over. Notwithstanding this the time of 1:46½ was very good for the distance that the Emperor of India ran in 1:44. John W. Gates, the ex-race track sport and plunger, was at the track, but it is said that he spent the most of his time in a box with his party in the grand stand, but made one little piker bet for a lady friend of a few dollars. Gates swore off last year playing the ponies, according to eastern dispatches, for he was too much loser to stay with the game. Furthermore, this little betting propositio inhere is too small for a man who wants to play big money like Gates has been in the habit of doing. The horses are not good enough to suit him and there are only one or two storekeepers at Ascot who would enough to suit him and there are only one or two storekeepers at Ascot who would the totake a bet from him that he night care to make. Tryon, the winner of the fifth race, was bid up from his entered price of \$500 to \$500 and retained by the owner. Jockey McBride was fined \$25 in the first race for crowding, and Walsh was set down for four days for some little trouble with the starter.

upon all manner of difficult shots, and the uniform high class of their mounts caused local enthusiasts to talk of little but the visitors tonight.

Though no longer a young man, the captain and sponsor of the team, Frank J. Mackey, plays a determined and vigorous game, driving the ball hard and true at every opportunity. He led in goals scored today, and went through the long grind of four twelve-minute periods like a young thorough-bred. His playing proved quite the feature of the first game, and was very largely instrumental in the reds' victory by 4 to 1.

NOTED ENGLISH EXPERTS.

NOTED ENGLISH EXPERTS.

With Mackey Wednesday will ride Sir George Prescott, F. Mensies and Capt. De Crespigny, all English players of note. Mensies and De Crespigny today gave a foretaste of the treat that lies in store for polo lovers by going through a series of field evolutions that made many think the game had been reduced to an exact mathematical science. All are splendid horsemen. They are provided with the best ponies obtainable, and after seeing them once in action, one feels there is little more to be expected of the aport.

Today's double-header arose from the players' desire to rest tomorrow in order to be fresh for the big cup fight, and several of the men were present through a strenuous afternoon's work of eight lively periods, but they were still keen for more when the sun sank behind the western hills.

M. E. Flowers, F. J. Mackey, W. L. Roberts and F. D. Hudson played'in the red as named, George Messervy and Ernest Hazel alternating at one; H. H. Pattee, Sir George Prescott and M. Redmuyne wearing the white in the first game. The opening period had but started when Mackey obtained command of the ball and ran it down the field for the first goal. A few minutes later, by a cleverly-executed coup, Mackey again earned a shot, and belted the wooden globe between the whites were a bit outclassed.

the ability of others. The picked quartette which will defend the Mackey CupWednesday at Chemawa Park is beyond doubt the ablest team ever seen in Riverside.

Today's tournament play was of a practice nature largely, and the visiting experts were separated into the usual arbitrary teams of reds and whites, thereby preventing any intelligent conception of their ability in combination, but, individually, the cleanness of their hitting, their unfailing accuracy in connecting with the ball upon all manner of difficult shots, and the uniform high class of their mounts caused local enthusiasis to talk of little heat the residual proposed and the uniform high class of their mounts caused local enthusiasis to talk of little heat the residual proposed and the uniform high class of their mounts caused local enthusiasis to talk of little heat the residual proposed and the uniform high class of their mounts caused local enthusiasis to talk of little heat the residual proposed and the uniform high class of their mounts caused local enthusiasis to talk of little heat the residual proposed and the uniform high class of their mounts caused local enthusiasis to talk of little heat the residual proposed and the uniform high class of their mounts caused local enthusiasis to talk of little heat the residual proposed and the uniform high class of their mounts caused local enthusiasis to talk of little proposed and the uniform high class of their mounts caused local enthusiasis to talk of little proposed and the uniform high class of their mounts are proposed and the uniform high class of their mounts are proposed and the uniform high class of their mounts are proposed and the uniform high class of their mounts are proposed and the uniform high class of their mounts are proposed and the uniform high class of their mounts are proposed and the uniform high class of their mounts are proposed and the uniform high class of their mounts are proposed and the uniform high class of their mounts are proposed and the uniform high class of the around goal. H. G. Pattee finally put in a long cross drive squarely between the posts, receiving a round of cheers for the clever stroke. The whites threatened the red goal repeatedly in the third, but partly through the good work of their opponents, and in a large share because of hard luck, they falled to connect.

large share because of hard luck, they failed to connect.

The reds went on in the second game, making changes nearly every period. Mackey, Mensies, W. E. Pedley and E. Hasel opened, meeting Capt. De Crespigny, J. H. Wright, E. D. Hildebrand and R. H. Newton in the white. The final score favored the reds 3 to 1. Menzies proved a deadly stick wielder when within striking distance of goal, and hit two before his opponents had fairly begun. De Crespigny saved the whites from utter defeat.

Tea was served in the clubhouse by Misses Gray and Baird. A number of Riverside's elite were present. R. L. Bettner officiated on the field.

7OUNG LADY; DEADLY SHOCK.

LMOST A FATAL ACCIDENT AT VENTURA CITY:

While Walking Along Street In Evening She Steps on Dangling Wire Supposed to Have Been Left by Suddenly Departing Show Com-pany and is Rendered Unconscious.

VENTURA, Feb. 20.—Miss Ida Or-tego, daughter of Luis Ortego of this city, received an electric shock last evening which prostrated her and which, it is said, nearly resulted in her

leath.

The young lady was returning home with her mother and others from a visit with friends on Front street, and while walking along the east side of California street between Front and Meta, stepped on an electric-light wire which was dangling from a pole about the middle of the block. The girl was immediately the worders and in fall. SPECTACULAR DASH.

The whites were a bit outclassed, but played gamely. Hazel, Redmayne and Flowers went tearing down the field in a mad tussle for the ball in the second period, affording one of the most spectacular dashes of the afternoon, but no scoring came of it, Flowers subsequently shooting another goal for the reds. Hudson put in a series of good strokes to miss the posts by a yard, but at the close of the

NEW ANTI-INJUNCTION BILL.

Congressman Jenkins of Wisconsis, chairman of the House Judiciary Committee, recently introduced in the House a new "anti-injunction bill," so called. In its general provisions this biff is even worse than the bill introduced at the last seasion of Congress, which was known as the anti-injunction bill. Inct was recognized that any interior gent legislation in the premises must be preceded by an accurate knowledge of facts and conditions. The outcome of the investigation is a bill which has been introduced in the State Senate by Senator Anderson (Senate Bill No. 638) and in the Assembly by Mr. Johnston (Assembly Bill No. 712.) Mr. Johnston (Assembly Bill No. 712.) This bill was prepared by the Bureau of Forestry of the United States Department of Agriculture by request of b the State authorities, under the co-

A careful reading of the bill tends to the belief that it will be likely, if enacted, to accomplish, so far as can reason ably be expected, the results intended,

The bill, as reported to both houses of the Legislature, is identical in form. It creates a State Board of Forestry, to consist of the Governor, Secretary of State, Attorney-General, and a State Forester, which office is created for the purposes of the pro-posed law. This official is to be appointed by the Governor. It is required that he shall be a trained forester, and he is to hold office at the pleasure of the State Board of Forestry. His salary is to be \$2500 per annum, and he is given a clerk at a salary of \$1200 per annum. scribed in Section 4 of this act; and publish from time to time such infornation of forestry as he may deem wise." He is also required to make a eport annually to the Governor show the progress of forest work, with such recommendations for improving work as may to him seem desirable. Five fire wardens are also provided for, at salaries of \$1000 per um each, and expenses not to exceed \$90 per month each while in the field. These fire wardens are to be distributed through the State, and their duties as prescribed are to enforce the forestry laws and to appoint ocal voluntary fire wardens nade for the organization of posser for fighting fire, and for cooperative action with individuals and political

Our esteemed but somewhat unpronounceable contemporary, the Jiji Shimpo of Tokio, expresses the hope that the Japanese and Russians will soon become good friends. As Tar as that goes, there really seems to be no hard feeling between them, even now, although they are endeavoring to remove each other from the face of the earth with a suddenness and completeness that is entirely at variance with all the accepted indications of brotherly love.

Our esteemed fellow-townsman, James J. Jeffries, having announced that he will fight no more, we see no further way in which he can advertise this town abroad. We respectfully suggest, therefore, that he return home forthwith and make it his custom to stand around in the Chamber of Commerce building along with the other exhibits.

A dispatch having been sent out from Reno stating that thieves broke into a house there, unfastening and carrying off a bath tub while the family slept, there can hardly be any further doubt that Nevada has at last resorted to the employment of presa agents.

Perhaps this man who was caught in a Los Angeles lodging-house boring out 220 gold pieces and refilling the same with capper was merely an overenthusiastic bimetallist surreptitiously endeavoring to force his theories on a stubborn and unappreciative community.

The public press has given ample warning of the presence of diamond ninpers in town, and any hotel clerk who now goes forth without taking the precaution to leave his glitter behind him does so at his own risk and upon his own responsibility.

Some thinks he's not as handsome
As the other men—What then?
It isn't always looks as counts
In the sixing up of men.
An' things like that don't never count
With me ye know; because
I remember the old sayin'.
"Handsome is as handsome does."

An' I tell ye one thing pleases me
About the little man,
He'll always say the kindest things
About folks that he can.
Perhaps they're gnarled and crooked
As a twisted stick o' wood:
But "Bob," he seems to think that
they'd
Be better if they could.

An' somehow he jest makes ye feel
You'd like to take his hand,
An' try an' walk along o' him
Towards the better land.
Ye know he'd not be hard on ye
I. ye sumbled ow an' then.
Perhaps he's had troubles o' his own
That makes him feel for men.

Leastways he never talks as if
He was so powerful good,
Taat he couldn't even slip on ice—
Though other people should.
But if a body went to him
Full of despair and pain.
He'd tell 'em neve: to give up
But try, an' try again.

For I heard him say las' Sunday,
In his own church you know—
That its better to die fightin'
With your face turned to the for
If ye fall, why jest git un agin—
Seems one clause o' his creed.
So I guess I'll join "Bo 's' church,

Didn't Need the Money.

At a recent campfire of the local camp, United Spanish War Veterans, Department Adjutant Rufus W. Pearson, who had served in the war as one of President Roosevelt's Rough Riders and was with the President in the Santiago campaign, told this story: He said there was a Rough Rider in New Mexico who got into serious trouble afte the war and finally found himself in a local jail. Forthwith he wrote to his old commander in the White House, at Washington:

"I shot at a party." he wrote, "but hit another fellow. I am in hard luck and great troubie, and please send me \$50 quick."

The President sent the \$50 by the next mail, but after a few days he got another letter, in which his Rough Rider returned the money, with this explanation:

"Since receiving your kind note, inclosing \$50, our Major Llewellyn has been appointed district attorney here, and so I guess I am all right, and do not need the fifty."—[Baltimore American.

INVESTMENT IN SECURITIES.
Large deposits are being withdrawn from the banks, and invested in securities, chiefly bonds, in order to avoid the State tax, which is about due, and the savings banks of the city are reported to be doing the same thing for the same reason. Within the past two or three weeks these banks have bought probably \$250,000 of Home Telephone and other bonds. They purchased the former at 85 to 89, and if they go to part they will net from 5½ to 5% per cent. interest. Of the 2,509,000 Home Telephone bonds, 2,428,000 have been sold, leaving 72,600 still to be disposed of.

California Oil Exchange. SAN FRANCISCO, Feb. 20.—Morning session f the Oil Exchange: Five hundred Four Oil

SIERRA MADRE, Feb. 26 .- The general superintendent and a number of other officials of the Santa Fe were at Santa Anita Station Saturday inves-tigating the problem of storm water at that point. When there is a heavy rain a torrential flow of water from mountain side and valley slope sweeps down that way, threatening to undermine the depot and leave a heap of gravel over the tracks. As a temporary measure the floods have been diverted with sand-bag barriers and the stream has been turned a quarter-mile eastward, where it would do less damage. Mayor "Lucky" Baidwin of the city of Arcadia met the officials and had a conference with them. One remedial scheme contemplates a tunnel to carry the water from the mountainside to the Little Santa Anita Wash.

ANOTHER GUSHER.

ANOTHER GUSHER.

Another gusher has been brought in at Santa Maria, this time by the California Coart Oil Company, whose property lies between the famous Hartnell gusher of the Union Oil Company and the Graciosa wells, about a mile from each. The strike of oil was made on Saurday and the well flowed at the rate of 5600 barrels a day and flooded the surrounding lands until capped.

Work has been going on on this property for about a year. The well is 2800 feet deep and is eight inches at the bottom, Eighteen hundred feet of teninch casing was used in the work. The oil is of the fine light grade produced by all the Santa Maria fields.

The company will have an outlet to tidewater independent of the Standard or Union pipe lines, through the extension of the Gracioca line, a distance of one mile from the latter company's wells. This runs to the coast at Alcarias Landing, where the Pacific Oil and Transportation. Company handles oil. Two 1600-barrel steel tanks will be shipped at once from this city.

The California Coast is a close corporation, the stockholders being R. H. Herron of this city, T. D. Wood, Santa Barhara; E. S. Shattuck and William Matcon, San Francisco. The last named is a leading magnate in the Pacific Oil and Transportation Company.

NEW LOUISIANA FIELD.

NEW LOUISIANA FIELD.

A Los Angeles man who has land holdings in the new fields at Cadds. La., has samples of the oil produced by the well brought in a few weeks ago on an island in the swamps near Shreveport. It is a thin, light, dark-greenish oil, running from 35 to 40 gravity, a grade excelled only by the famous white oil of Newhall in this county, which reaches 494, and some county.

There are many conflicting reports carding the new field. The oil is said to have been struck in the well at 1546 set and at first gushed intermittently, but finally becomes but finally began a steady outpour eight feet in the air, which continued until capped. The well is owned by the Caddo Oll and Pipe Line Company, of which Frederick Offenhauser of Texerkana is president. The land surrounding the well is mostly owned by farmers of the poorer class who are generally ready to sell and it is surrounding tready to sell and it is surrounding tready to sell and it is surrounded.

sriana is president. The land surrounding the well is mostly owned by armers of the poorer class who are generally ready to sell, and it is supposed that the oil men are striving to seen the matter as quiet as possible until they go, control.

The discovery was due to the striking of grain a well dug by section men on the railroad some years ago. From this an-oid negro was able to pipe gas to his cabin, sufficient to furnish light, and heat and do all his cooking. Capitalists, hearing of this, investigated and began the search for oil.

Among the many reports about the field is one recently published in the Ballas News, to the effect that Hayward Bros. of Califernia and Beaumont have just purchased seven and a half acres for \$25,000.

PIPE LINE COMPLETED. PIPE LINE COMPLETED.

The Associated has completed its fipe line connecting with the wells of the Independent Agency, and as a result the deliveries of oil at Kern River are expected to be much larger this month than last. The the is put in entirely at the expense of the Associated, the contract calling for delivery by the Agency only at the well.

POPET HARFORD WHARF

PORT HARFORD WHARF.
The San Luis Obispo Tribune says that a movement has been started to have a large wharf built at a point about a mile from Port Harford to fastilitate the shipment of oil from the santa Maria field by steamers. The plan is said to be to have the county issue bonds and build the wharf at public expense. When completed it would be open to all producers or shippers upon payment of a smal taxl. As the county owns nearly all the water frontage the plan is thought to be practicable. PORT HARFORD WHARF

In an interview at B. kersfield, Timpthy Speliacy, vice-president of the Insependent Producers' Agency, expressed the opinion that no benefit would result from declaring all pipe lines common carriers. In the case of the Standard's great line a hardship would be worked upon the big company and the producers. As a reason for this, he points out the difference in the Kern and Coalinga oils, which would necessitate continual and extensive changes and delays. Moreover, he states, that the line is not a success of far as Kern River oil is concerned, the cost of delivery being enormous,

owing to the heavy character of the oil which is too difficult to pump. TO EXPERT ARIZONA FIELD.

An oil man of this city has gone to Arisona to examine the supposed fields at Safford nad Tonto Basin, in the interests of local capital. If his report is favorable, steps may be taken to form a company and develop the district. STANDARD IN COLORADO. STANDARD IN COLORADO.

The Standard has cut the price at Florence, Colo., to 80 cents a barrel, and as a result a bill has been introduced to build a State reflnery in Colorado on lines similar to that proposed for Kansas. The Colorado district has been subjected to a series of cuts similar to those in other States.

assembling, and captured a humorist, who has hurried in to supply the entertainment.

Ralph Parlette, the well-known lecturer from Ada, O., is the man who saved the day. He explained to the club that he had been apprised of the part he was to play twenty minutes previously, and had come on a dead run without his case of samples, so to speak. He was an example, he thought, of having greatness thrust upon him and in speaking of "greatness" he reminded his hearers that "some men are born great, and shrink; some men achieve greatness and swell up; I can neither shrink nor swell," said he, "but I will do the best I can to fit myself to the situation."

This he proceeded to do with the agility of the true humorist. Taking "Greatness" for the subject of his impromptu address, he preached the gospel of sunshine and laughter, and the greatness of simple, thankful, joyful living in a manner to make the proverbial wooden man smile and the misanthrope against whom he was inveighing to cure himself with a laugh. "Tou heedn't think that you are living," said he, "just because you are not underground, and there is a great difference between living and being alive, between the reciprocal and the vegetable existance.

"There is also a great difference between a leaner and a lifter; some people suck up everything like a spouge, and you can't get anything out of them without squeezing them; and some people can lift you way up above the price of corner lots, up into the pure sunshine of existence."

Mr. Parlette gave a picture of the long-faced, grouning Christian, taking

of corner lots, up into the pure sunshine of existence."

Mr. Parlette gave a picture of the long-faced, groaning Christian, taking a certain Aunt Jane of his who had been born in the Mosaic dispensation as the groaning example thereof. "I believe in long faces," he said, "but I believe in the ones that stretch the other way."

Laughter he praised as the best medicine ever found for the human race, "the oil that lubricates the hinges, and the soap that scours off the rust of life. Call this world a vale of tears," he exclaimed, "what a slander on the Almighty who has labored for uncounted ages to produce such a masterpiece. Selo, where Catherine the Great lived in splendor, surrounded by her lovers and the poets and painters, musiclans and men of learning whom she attracted to Russia from all Europe. The great palace at Tsarkee Selo is an ugly, monstrous pile, an architectural nightmare, as one author has called it, accused of presenting every fault and illustrating every blunder that an architect should avoid.

It is retained very much as she left it, and has never since been occupied by the imperial family. But within the grounds, which cover over 2000 acres of garden and forests is a French chateau, erected by Alexander II for his morganatic wife, the Princess Dolgorouki, which is very attractive and comfortable, and it has been the habit of the present Empress and her mother-in-law to go fhere at the birth of their children. Nicholas II has occupied it almost continuously during his reign. It is too small for court and ages to produce such a masterpiece.
I tell you frankly if I had been present at the creation I cannot think of a thing that I could have suggested as

thing that I could have suggested as an improvement."

The humorist really preached a sermon, but it was such a side-splitting one that nobody thought of it as such at the time. The face and figure of the lecturer assumed every attitude fitted to the ridiculous situations he evoked, and his voice is one that would have made his name and fame forever in the days of the oid-time revival, warranted to produce shouting upon the slightest provocation.

Mr. Pariette has been a humorous lecturer many years. He, is also a journalist, being editor of the Herald, the principal paper in Ada, O., a college town.

The Ruler of Russia. The Ruler of Russia.

The general allusion to the ruler of Russia as the "Czur" is, strictly apeaking, incorrect. method that would obviate stomach drugging.

A complete Hyomel outfit costs but \$1, and consists of a neat pocket inhaler, that can be used anywhere without attracting attention, a medicine dropper and a bottle of Hyomel. Extra bottles of Hyomel cost but 50c.

Breathing Hyomel through the inhaler, every particle of air that enters the nost, throat and lungs, is charged with a healing belsam that soothes and aflays all irritation, kills the catarrhal germs and enriches the blood with additional osone.

Druggists everywhere are authorized to refund the money should a Hyomel outfit and one extra bottle fail to afford rollef. Says that if There be Any Further Intimation of Trouble He Will-Have All Persons Coming Into Courtroom Searched for Firearms. Many Cartridges in Prisoner's Grip.

(BY DIRECT WIRE TO THE TIMES.)

BAKERSPIELD. Feb. 20.—(Exclusive Dispatch.) In the hearing of the \$75,000 suit of J. E. Wulker against J. A. Chansior et al., the entire afternoon today was devoted to the reading of depositions of Detective George N. Tichenor, who was employed by the plaintiff to secure evidence in the case. Before resuming the hearing today, Superior Judge J. W. Mahon called attention to the fact that there had been considerable talk about carrying and using guas. He said that while he would not at that time make an order in regard to the carrying of firearms, if there was any further intimation of trouble or the use of weapons, he would issue an order that every one coming into the courtroom be searched for weapons before entering, as he did not propose to have anything of that kind going on in a courtroom crow id with people.

DISMISSAL OF MARY BURKE CASE IS LIKELY.

San Bernardine Difficulty in Which Pasadena Physical Culture Teacher Alleged that by Fraud She Was Induced to Sign Note, Likely to End Next Week.

SAN BERNARDINO, Feb. 26.—The sensational mining suit brought by Mary Burke, a physical-culture teacher of Pasadena, against William H. Allured and James Marrs, old desert miners, to recover \$5,000 damages she alleged she has sustained in a deal with them, whereby she had advanced to Allured \$500 to purchase a group of mining claims in the Buillon district, this county, will be dismissed next week, the attorney for the defendants having filed notice of his intention to move for the dismissal on the grounds of failure of the plaintiff to prosecute the action.

The auit was instituted three years ago. Mrs. Burke set forth in the complaint that Allured had informed her that the mining property was in Marrs's name, that he did not know the value of the property, which could be bought for \$12,000, when in fact it was worth \$2,000,000, and he suggested that Mrs. Burke contributing \$500 and they their labor, and that the remaining \$11,500 due on the property be obtained from the sale of the ore.

BEAR-VALLEY WATER DEEP.
REDLANDS, Feb. 20.—This morning measurements showed thirty-one feet of water in Bear Valley Dam, all of it having fallen since November I. The weather has been so cold in that section that much of the season's precipitation has resulted in snow, which, previous to the last storm, lay over five feet on the level. Because of this much of the rain has been prevented from becoming surface run-off, settling the snow instead, and being absorbed into the ground.

EVANGELISTS ARRIVE.
Rev. Dr. J. Wilbur Chapman and Vaughan had asked for a jury trial, but when the case was called this morning he entered a plea of guilty and was fined \$25, which he promptly paid. The case was prosecuted by the officers of the Orange County Fish and Game Protective Association, who claimed to have evidence that Vaughan has been carrying on a systematic sale of quall during the entire season. Vaughan, although he pleaded guilty to the charge, asserts that the violation of the law was purely technical, and that the prosecution of the case against him was a piece of spitework. Vaughan has for years been the most expert clay-pigeon shot in the Southwest.

TRUSTEES FIX LIGHT RATES.

The City Trustees tonight passed an ordinance fixing the prices of gas and electricity furnished consumers within the city limits. The gas rate was fixed at \$1.25 per 1000 cubic feet, with a minimum charge per consumer of 50 cents. The rates which were fixed for electricity are taken from the prices charged by the Riverside municipal plant, as follows: Fifteen cents per 1000 watts for first 5000; 10 cents per 1000 from 5000 to 95.000; 6 cents per 1000 above 15.000.

Gas prices were formerly \$2 per 1000 cubic feet, with minimum varying from 50 ct. s to \$1. Electricity rates were assed on a sliding scale varying with the amount consumed by different individuals. All the gas and electricity here is furnished by the Edison Electric Company under the local name of the Santa Ana Gas and Electric Company. Officers of the company regard the rate fixed tonight for gas as ruinoux, Calaring that it will barely pay operating expenses.

LOOKING TO FUTURE.

ANAHEIM, Feb. 20.—On account of the rapid growth of the city many new applications have been filed for water and lights that cannot be filled for lack of funds to increase the electric system, and lay new water mains. A month ago there was talk of voting \$10,000 or \$15,000 bonds to enlarge the water and lighting plants, both owned by the city, but it is stated today that some of the leading citizens favor a some of the leading citizens favor abond issue of \$50,000 so that all needed bond issue of \$50,000 so that all needed improvements can be made at once, leaving a few thousand dollars for future needs. It is estimated that the enlarging of the power-house, and the extension of the water and electric plants would cost alone about \$30,000 to meet the present requirements.

what has become of him. Walter was a member of the various private detective agencies. For three weeks, almost, Walter has been missing, and his friends do not attempt to disguise the fear that in a fit of despondency he has taken his own life.

Walter came to Los Angeles more than a year ago from Chicago, where he had been an assistant in the office of now Gov. Deneen. He was well known to politicians throughout Illinois, and but for his love for strong drink, was regarded as a very able attorney. Drink was his curse. He came to Los Angeles of the purpose of getting away from associates who made it difficult for him to keep from drinking, but even after he came here he sometimes looked upon the wine when it was red, but not for a long time.

After he came here he made an honest and earnest effort to reform. He signed the piedge and from time to time spoke at temperance meetings held at the valous missions. He had, a number of friends here who had known him in Chicago and any of them would have willingly assisted him. During the last political campaign he made several speeches, for he was a public speaker of great ability. He is said to have threatened to end his life if he ever found the drink habit coming back on him.

SENATOR-ELECT GUEST OF THE VALLEY CITRUS MEN.

Covina and Azusa Extend Hospitality While Explaining Needs of Great Industry to Solon, Who Promises Earnest Support to a Feasible Plan if Formulated.

COVINA, Feb. 20.- Amid the booming of cannon, the waving of flags and the beautiful strains of "America," Covina and the adducent valley today welcomed as her guest Hon. F. P. Filint, United Takes Senator-elect from California. It was a great day for this part of the valley, famed for its hospitality. The festivities began at 9 a.m., when a committee of the foremost citizens met the visiting party at the Southern Pacific station, on the arrival of the morning train. Aft. a few pleasant words of introduction were exchanged the company pro-

ing gentlemen responded to toasis as named:
"Our President," the Rev. George W. Taylor: "Our Citrus Industry," Gen. S. P. Jennison; "Southern California," the Rev. J. W. Utter: "The Ladies," H. H. Kinney; "Our Guest," Senator Frank P. Flint.

Mr. Flint declared himself in favor of enacting a protective tariff for citrus fruits, the abolishment of rebates, the institution of more rapid transportation facilities for Southern California products, etc. On the subject of regulating freight rates by the Interstate Commerce Commission he said there was a conflicting sentiment among the people of the State; that the only writing he had received on this subject was in the nature of protests from large business interests at San Francisco, Sacramento and San José against vesting such powers in the commission. He said the events of the future would control his actions, and that such actions on his part would be in accord with "what I may determine to be the desire of the majority."

LONG BEACH, Feb. 20.—The proposition to build a temporary pavilion on the outer end of the pier caused considerable discussion today, in the Board of City Trustees when bids for constructing it were opened. Trustees Campbell and Cole opposed the project on the ground that the insurance money properly belonged to the "bath house" bond fund (meaning the pavilion) from which the originual pavilion was built. The City Attorney ruled that the bath house pavilion was but a subterfuge in the first place and furthermore that no location was specified and a new structure could be built at any place. Trustees Eno Losee and Oakford took this view of it and the contract was awarded to William Roumel and Son for ESS, 70, the lowest of six bidders. The highest bid was 14500. The successful contractors will begin work at once and expect to have the building ready for occupancy in ten days. The highest bid was 14500. Health of American Women

A Subject Much Discussed at Women's Clubs-The Future of a Country Depends on the Health of its Women.

At the New York State Assembly of Mothers, a prominent New York doctor told the 500 women present that healthy American women were so rare as to be almost extinct.

This seems to be a sweeping statement of the condition of American women. Yet how many do you know who are perfectly well and do not have some trouble arising from a derangement of the female organism which manifests itself in headaches, back-achea, nervousness, that bearing-down feeling, painful or irregular menstruation, leucorrhœs, displacement of the uterus, ovarian trouble, indigestion or alepleasness? There is a tried and true ramedy for all these ailments. Lydis E. Pinkham's Vegetable Compound will do for her. For thirty years it has been ouring the worst forms of *p-male complaints.

Such testimony as the following ahould be convincing.

Mrs. T. C. Willadsen, of Manning, I.a., writes:

Dear Mrs. Pinkham:—

"I can truly say that you have saved my life and I cannot express my gratitude to you in words. For two years I spent tots of mency in doctoring without any benefit for menstrual irregularities and I had given up all hopes of ever being well again, but I was persuaded to try Lydia E. Pinkham's Vegetable Compound and three bottles have restored me to perfect health. Had is not been for you I would have been in my grave to-day."

Mr. and Mrs. W. S. Cross of No. 1134
West Twenty-ninth street gave a
daintily-appointed dinner on Saturday
evening in compilment to Dr. E. R.
Macdonald of San Francisco. The decorations were suggestive of the valentine season and were both unique and
beautiful. Places were marked with
heart-shaped cards adorned with clever
verses about each guest. Covers were
laid for Mr. and Mrs. M. E. Johnson,
Mr. and Mrs. Voce of Boston, Mrs. L.
M. George, Mrs. L. A. Gould, Mrs. J.
B. Grady, Miss Thompson, Miss Mary
Hough, Mr. Brown and Frank Hough.

Club's Elegant Setting.

The "P. E. O." Club met at the home
of Mrs. O. E. Woodruff, No. 1250 Magnoils avenue on Wednesday afternoon.
The elegafit home and spacious parlors
were elaborately decorated for the occasion, the club's flower, the marguerite, being seen everywhere. The club
colors were also shown in different
forms of yellow and white, One of the
most dainty demonstrations in the colors was the hostess in yellow silk and
white lace. A number of visiting members were present from other States and
all made speeches. The ice cream was
moulded in the form of marguerites and
flarguerite cakes were served.
